*Bachelor of Engineering
Major Software Engineering*

Espoo, Finland

From Sep-2016

Bonner Springs High School

Graduation

Edwardsville, Kansas, U.S.A

May, 2015

EXPERIENCE

NFQ ASIA

Software Engineering (Angular, React)
Continue developed the application using Angular. Implement the interface for employees to login, apply for leave, ... using React. In this period, I learn how to create a Single Sign On server from my tech leader; and implementation payment feature while helping another team in the company during their shortage of human resource.

10.2019 – 10.2020

HCM, Vietnam

NFQ ASIA (Internship)

Full stack Developer (Angular)
My tasks were element new features as well as fixing bugs and writing unit test in both Front-end and Back-end side. I also made introduction video for releasing new features and used Nest.Js to document the APIs instead of using SwaggerHub. In this job, I suggested to refactor a feature that was highly appreciated and approved by the PM and the customer

03.2019 – 09.2019

HCM, Vietnam
